

# Lawyers in the Service

Records of the Supreme Court and the State Bar of Texas list 287 Texas lawyers who are in military service. Approximately half of these have paid registration fees for 1941-42, although non-practicing lawyers in military service are not required to do so.

The following list is by no means complete, and the JOURNAL will be glad to publish other names submitted by its readers. Military addresses as a rule will not be published, but they will aid the central office in sending JOURNALS to those in the service.
