Subject: Board of Director Letter Question
Date: Wednesday, May 19, 2021 1:45:49 PM

Do you think that this drivel will have any impact? You could have lobbied or encouraged the membership to campaign to lower the number of signatures needed for election to President-Elect, but you did not. Changing the number of signatures required would have done more to increase diversity and participation than all the whining and belly-aching over ancient emails – and you know what I mean. Also, there was legislation allowing solos to participate in our group medical plan. Director Steve Fischer posted this information. Is this correct? Of course, when more than 80% of the membership does not participate in your elections, it raises some questions. Do you want participation or simply want to continue doing the elections as you have done them? You appear not to want any membership involvement and you have achieved that goal. It is even expected since you created an “ Ombudsman” to help our clients file grievances against us. Good work.
